Looking for award winning kitchen design?

TRENDS
KITCHENS

Custom designed & built kitchens

With our experienced team of kitchen designers we offer you a free measure and quotation service, or an extensive designer package including computer renderings of your new kitchen.

Trends Kitchens is your one-stop-shop for everything from design, to manufacture and installation of your new kitchen or custom joinery. All Trends kitchens are custom made by our experienced joiners in our own factory, because we build all of our kitchens to your unique design.

Visit one of our comprehensive designer showroom for ideas on everything from contemporary to traditional kitchens.

At Trends Kitchens, a lot of time and expertise are invested in helping you achieve a kitchen design that fulfils your wants and needs.

If you are remodelling, the structure of your existing home will limit your kitchen design layout options. You will have considerably more flexibility the larger your space and if you're building a new home or adding on.

The layout of your kitchen, where you place your appliances, your bench top, and your storage, will determine how user-friendly your kitchen is. Your kitchen should be functional, yet pleasant and inviting.

Unlike most kitchen suppliers, Trends Kitchens is unique in that we design and build all of our kitchens at our showroom & factory site.

This ensures that your kitchen is unique to you, and custom crafted for your home.

Once you've met with one of our designers and planned the perfect kitchen for you, we can begin the process of making it a reality.

Because we custom build every kitchen we sell, there's no reason you can't have the kitchen of your dreams - your imagination is the only limitation.

Our expert joiners take a great deal of pride in their work, and with their years of experience, you can be assured of a high quality product that you will be proud to have in your home.

Trends Kitchens exclusive products & services, only the best for you.

We can offer you some of the highest quality kitchen fixtures in the world, some of which we import exclusively, some we fabricate ourselves in-house, including:

- **TriStone** 100% Acrylic Solid Surface bench tops
- **silversafe** nonslip, antibacterial matting
- **proform** thermal forming kitchen doors
