

Everyday cleaning

- ✓ Use a soft damp cloth with diluted, mild detergent.
- ✓ Dry thoroughly after cleaning.

Preventing damage

- ✓ **Wipe handles and knobs regularly**, to avoid a build-up of residue.
- ✗ **Never use harsh solvent or abrasive cleaners or scourers.** These may affect protective coatings such as plating, powder coating and lacquer.

Stainless Steel only

- ✓ For stubborn stains, a mild solution of Jif or cream cleanser can be applied in the direction of the grain. Rinse well and dry thoroughly.
